(54) IRON GOLF CLUB

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an iron golf club with a head part having the low center of gravity and the deep depth of the center of gravity.

SOLUTION: The head part 1 of the iron golf club has a hollow structure, and has a face part 4 on the front side, a back part 2 and a cavity part 7 on the rear side, a sole part 3 extending backward from a lower end part of the face part 4, and a top edge part 5 extending backward from an upper end part of the face part 4. A rear side surface of the back part 2 is provided with a projecting part 6 extending toward the sole part 3 from the top edge part 5, and projecting backward from the sole part 3.
